

Our promise to you

We are proud of our Australasian coating...

MANY OF OUR COATED PRODUCTS ARE COATED IN AUSTRALASIA; WHEN IT IS NOT EFFICIENT OR VIABLE TO COAT IN AUSTRALIA, WE COAT OFF-SHORE. HOWEVER, NO MATTER WHERE WE ARE WE NEVER CUT CORNERS, WE USE AUSTRALASIAN CHEMICALS SPECIFICALLY DESIGNED FOR USE IN BASFORD PRODUCTS. EXCLUSIVELY MADE FOR US, THESE FORMULATIONS ARE ENGINEERED WITH HARSH CLIMATE AND OTHER CONCERNS OF AUSTRALIANS & NEW ZEALANDERS AS A MAJOR FOCUS AND PRIORITY. WE'RE CONFIDENT ENOUGH TO HAVE INCREASED OUR WARRANTY TO 3 YEARS. ALL OF OUR LININGS ARE TESTED ANNUALLY BY AN INDEPENDENT LABORATORY NIWA/ARPANSA WHICH IS THE AUSTRALIAN AND NEW ZEALAND GOVERNMENT'S PRIMARY AUTHORITY ON RADIATION PROTECTION & NUCLEAR SAFETY.

100% OF OUR LININGS RECEIVE THE HIGHEST RATING POSSIBLE FOR ULTRAVIOLET PROTECTION FACTOR. WE MAKE NO COMPROMISE ON QUALITY, OUR CUSTOMERS DESERVE NO LESS.

- Dry-cleanable as per care instructions

Filigree Linings make it...

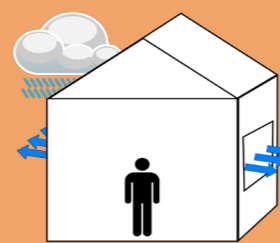

quiet

Ambient noise can be kept to a minimum by using curtains backed with Filigree Linings.

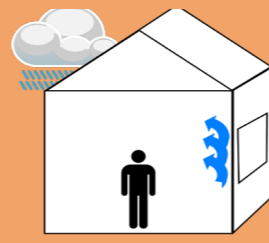

The Sound absorption achieved by your lined curtains provides multiple benefits during both daytime and night time, making your living and working space simply quieter, bringing a noticeable level of calmness.

Noise is absorbed creating a peaceful environment for babies, children and adults.

Heat inside escapes through uncovered window

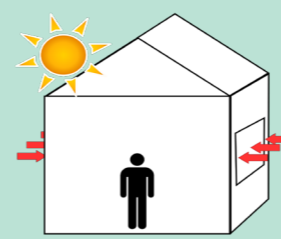

Heat is kept inside with lined curtains

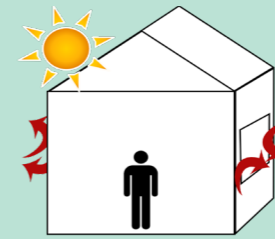

warm

Heat loss occurs more readily in Winter where your windows are prone to condensation and chill. Just a single degree reduction in temperature inside your home will have a substantial impact on your heating costs.

Heat loss savings of up to 40% can be achieved with heavy curtains, pelmets and Filigree Linings.

Heat transfers through uncovered window

Heat is kept outside with lined curtains

4 5

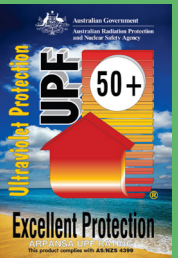

Protect those that you love and the things that you love by lining your curtains with Filigree Linings.

Climate change means our summers are becoming hotter!

You can protect your home contents against the harmful effects of UV rays such as fading and disintegration, with drapes backed by Filigree Linings.

cool

safe

Fire retardants are used to slow the spread or intensity of a fire.

Part of the Filigree Lining range is fire retardant, making it the safest possible choice in both residential and commercial applications. To ensure optimum safety, the front fabric can be chosen from our range of our FR treated face fabrics.

Our new specifically formulated chemicals provide us with safe and VOC free product.

dark

Ideal for shift workers, babies or home theatres, Filigree Linings turn day into night, offering room darkening, privacy and protection.

Filigree Linings offer a choice of three UPF grades of lining, approved by ARPANSA, the Australian and New Zealand regulatory authority.
